IMMIGRATION ISSUE

I believe that family separation is a major immigration issue that needs to be addressed especially in the society that we live in today. Though many might believe that it is just something that happens at the border, I think that we have a big issue at hand when it comes to family separation within our border as well.

CIVIC ENGAGEMENT ACTIVITY

I will be volunteering with a local non-profit, Communities United. Where they have various opportunities that you can get involved and be part of values of family unity, equal opportunity, empowerment, and self-sufficiency.

Getting involved this way I believe will help me be better informed about what is going on in term of immigration as well as be able to inform others about what is going on involving immigration and how they to get involved.

THEME APPLICATION

The issue of family separation goes along perfectly with the reading by the Los Angeles Times about La Santa Cecilia's protest anthem regarding the issue. It reflects the hardship that individuals undergo and reflects upon the issue affecting a great scale of individuals.

ICE is on the loose out on the streets
You never know when your number's up
Cry, Children cry when they get out
They cry when mom's not coming to pick them up
Some of us stay here
The others stay there
That happens for going out to make a living
- La Santa Cecilia's latest single, "El Hielo" (ICE) protest anthem.
